

School Musicals

Each year we do a school musical. Sometimes we alternate who has the majority of the show. If grades one through four have the main parts of the show, preschool and kindergarten and grades 5-8 sing songs that match the theme or content of the show. The next year responsibilities switch. At other times, the entire school is involved throughout the show. In either case, songs are introduced in the music classroom, but the teachers are responsible for teaching all of the parts, their narration, and their own choreography. Here is the list of musicals done in the past few years:
